Typography

Headlines

The rounded terminals of the Quicksand Light typeface fit well with the circularity of the EOSC symbol and remain readable even in small sizes. On particularly dark backgrounds and images it is allowed to use Quicksand Regular instead of Quicksand Light. Sub-headlines are to be set in Roboto Light.

Body copy

The Roboto Light typeface has a natural reading rhythm and features friendly and open curves which match the inclusiveness of the main EOSC logo. The colour codes for body copy text on a white or light background are: RGB 100/99/99 - CMYK 0/0/0/75 - #646363

Never use italics, except for words in a foreign language.
